

# SCHOENWALD - (NEW) HYGGE

Aug. 2018

Greetings!

Schoenwald Germany introduces HYGGE which epitomises the Danish art of living. An entire spectrum of cheerful patterns in shades of blue with a trendy hand-made look.

The seven different styles look as if they have been casually painted on the porcelain – a rustic painting technique that lends them inchoate charm.

## RUSTIC LIGHTNESS

Simply put, HYGGE creates a cheerful mood – particularly when all the patterns are colourfully mixed together on a table. A mix 'n' match of fresh light blue combined with a rich dark blue.

## FLORAL GRACE

HYGGE invites us to take pleasure in sharing the good and simple things of life. It happily mixes shapes and colours: bowls with flat or deep coupe plates, plain colours with decorated pieces. Joie de vivre is further heightened by the enjoyment of coffee to which HYGGE contributes with pleasing cups in different sizes.

Please let us know if you have any queries.
