### TUMBLERS OF POWER

Now even more POWER - new tumblers

The POWER collection from Stölzle Lausitz has gained two new additions: a **white wine** tumbler and a **red wine** tumbler. These are particularly suitable for casual events or for use outside. They can, of course also be used as a simple, yet stylish vessel for water or other non- alcoholic drinks. These tumblers complete the POWER collection, which up to now consisted of a large red wine glass, a universal white wine goblet and a champagne flute.

The look of the new POWER collection has also earned it a nomination for a German Design Award. Broad and flat bowls, allow for maximum contact with air thereby enabling the aromas to develop. The collection stands out with its straight bowl and tapered stem.

## MUNICH OKTOBERFEST

### Stölzle glasses at the Munich Oktoberfest

A few days ago, the 184th Munich Oktoberfest began. Once again, beer mugs from the ISAR collection are joining in the celebrations at the world's largest folk festival. They are produced in a Stölzle Oberglas plant, a sister company of Stölzle Lausitz. If you're also looking to experience some of the fun of the festival at home, or want to offer it to your customers, why not get yourself an original ISAR beer mug?

## VALENTINE'S DAY

### L'amour Collection

If you're looking for a lovely, personal gift for this coming Valentine's Day, Stölzle Lausitz has the ideal product for you: two champagne flutes from the L'Amour collection. The glass is adorned with a red heart, added in Stölzle's own glassworks in Lausitz, thus making this champagne glass a unique gift for a romantic evening. If you would like to give your clients this special gift for next Valentine's Day in mid-February, order now to secure larger order volumes.

We would be glad to assist if you have any queries. Looking forward to your kind response.

Sincerely,

Raman Grover
