55.0001.6040

What do you expect from your chafing dishes? An attractive design? Top quality? Perfect handling?

The WMF VITALIS PRO range offers you perceptibly more. The encapsulated Transtherm® base, the transparent glass lid and an intelligent condensation recirculating system will convince you; whether in GN 2/3 or round.

Universal

Doing one thing doesn't exclude another. WMF VITALIS PRO chafing dishes not only meet the demand for chafing dishes suitable for induction systems but also perform well with standard heat sources; hotplates and sterno systems. With a consistently high quality which means your food remains hot and appetising throughout. Your customers will be satisfied.

As well as outstanding flexibility and a high level of functionality, WMF VITALIS PRO chafing dishes also have other product benefits, including heat-resistant handles, catering-grade material and an extensive range of accessories. This way, you can raise the quality of your buffet to a new level, but still match your current style as the products coordinate perfectly with the WMF CHANGE Collection!

Smooth operation. Over and over again.

German-made quality:
the lid solution makes opening and
closing the chafing dish a pleasure.

Every WMF VITALIS PRO chafing dish
is equipped with a transparent glass
lid. That provides a clear view of the
food, even when closed. It's so easy
to open, and it engages at various
opening angles. Closing it is even
easier: the lid movement is controlled
by a long-life brake mechanism
developed in Germany and therefore
the noise is dampened.

With taste and style, the elegant porcelain
and Cromargan® WMF utensil rack is the
perfect complement to the WMF VITALIS PRO
chafing dish. Just slot it in, place the serving
spoon on top and that's it!
