

For shower fans ...

The new **BETTETWIST** is the first combined shower and bath made of steel/enamel for all ages – space-saving as well as comfortable. Sophisticated technical details make **BETTETWIST** safe and comfortable in daily use. A deep, wide recess in the bath wall makes it easy to get in and out. The toughened safety glass door is raised and lowered electronically and can be pivoted to the inside outside.

BETTETWIST

The shower for taking a bath

An electronic water level gauge ensures that the bath cannot be filled while the door is open. Whenever the bath is full, the water level gauge prevents the door from opening. The integrated Clou fittings allow a higher water level for even more bathing pleasure. To provide solutions to fit into every space, **BETTETWIST** is available in 3 sizes and both left-hand and right-hand versions. As an option, it can also be supplied with a special panels for installation in corners and niches.

*Dimensions
(length x width x depth / reclining space)*
160 x 90 x 70 cm / 1290 mm
170 x 90 x 70 cm / 1390 mm
180 x 90 x 70 cm / 1490 mm

BETTETWIST is easy and simple to operate via a touch screen on the edge of the bath.

...who also like to take a bath.

The Silhouette bathtub series is available in three different designs: the puristic form of **BETTESTARLET SILHOUETTE**, the spacious, flowing design of **BETTEHOME SILHOUETTE**, and, **BRAND-NEW**, in a rectangular form with straight lines as **BETTECUBO SILHOUETTE**. All three models in different sizes stand out by their unique, seamless, conical design – for free-standing elegance in the bathroom.

*Dimensions
(length x width x depth / reclining space)*

BETTEHOME OVAL SILHOUETTE (left)
180 x 100 x 45 cm / 1355 mm

BETTESTARLET OVAL SILHOUETTE (right)
175 x 80 x 42 cm / 1270 mm
185 x 85 x 42 cm / 1370 mm

BETTECUBO SILHOUETTE (below)
167 x 80 x 45 cm / 1280 mm
177 x 85 x 45 cm / 1380 mm

Three genuine highlights

Seamless beauty – the **BETTESILHOUETTE** bath series

With the SILHOUETTE bath series, Bette highlights its outstanding competence and innovative leadership in steel/enamel bathroom products. With the help of latest manufacturing technology, the free-standing baths are made from steel “in one piece”. To create the unique SILHOUETTE, a continuous, conical steel/enamel coating is firmly bonded to the body of the bath. Its elegant, high-quality design makes this tub an eye-catcher in every bathroom. As a solitary element, it enhances the interior with a touch of spaciousness. With their refined, elegant lines, the models of the SILHOUETTE bath series open up new perspectives for designing modern bathrooms.

BETTEGLAZE® ensures flawless hygiene, ultimate brilliance and impressive durability for Bette products.

The pre-assembled drainage fittings with flexible pipes in M3/R3 design from Viega enable easy installation.

The original **BETTEFLOOR** – even flatter

Thanks to its angled corners, the original **BETTEFLOOR** shower area blends harmoniously into the floor and offers showering comfort without a tripping hazard. To realise this concept even more fully, the drain cover has been further optimized and flattened, so that it is now flush with the shower area. A logical further improvement for even more harmony and beauty in the bathroom.

BETTESET – short and excellent

BETTESET, the classic among bath-and-shower combinations, is now available in an additional size of (160 x 70 x 38 cm) to complete the range.

*Dimensions
(length x width x depth / reclining space)*
150 x 75 x 38 cm / 1195 mm
160 x 70 x 38 cm / 1250 mm – New!
